2020-2021

DIAA ATHLETIC PHYSICAL AND CONSENT FORMS

Upon publication of this packet, these forms **MUST** be utilized when completing required DIAA forms for the 2020-21 athletic season. Each year, the DIAA will utilize this cover letter to update providers on any important changes and important dates.

The DIAA Sports Medicine Advisory Committee recommends that the required forms be completed by the student athlete’s primary care provider (medical home) to ensure continuity of medical care. These forms must be completed after April 1st 2020 based on a physical performed by the signing physician within one year of the date of signature.

Please check the [DIAA website](#) for updates regarding COVID-19 and management of student athletes. As information is changing rapidly, DIAA, in collaboration with Division of Public Health (DPH) will post updates as needed to the website.

**Key Changes for 2020-2021:**

- This packet has been updated based upon new guidelines by the American Academy of Pediatrics Pre-Participation Evaluation (PPE) 5th Edition.

- There is now a checkbox on page 2 for immunizations that should be checked indicating that immunizations are attached when appropriate.

- Students who have not had a DIAA PPE such as students entering middle school, students who are first time participants in athletics, and out-of-state transfers, **ARE** required to have a PPE prior to athletic participation. All students entering sixth and ninth grade **ARE** required to have a PPE prior to athletic participation. Therefore, parents and guardians must complete and submit pages 2, 3 and 5, including a physician’s examination (page 4), prior to any participation.

- Due to the COVID-19 pandemic and concerns regarding access, returning student-athletes that had a valid 2019-2020 pre-participation physical may not be required to have a PPE until the end of the fall season and prior to starting the winter season. This means a physical that was good for the 2019-2020 season will be good for the start of the 2020-2021 season. These students should complete page 2 and the supplemental forms referenced in the next bullet unless a re-examination is required.

- **However,** a Supplemental Form [a new History Form * (page 3) and medical card * (page 5)], **MUST** be completed for all athletes, and based on review of the forms, the school’s qualified healthcare provider (QHP) will determine if a physical and evaluation by the student’s primary care provider is required prior to participation. For returning athletes, when completing the history form, please make sure to only answer “yes” if there are **new issues** since you were last cleared for participation/ last year’s valid PPE.

- Given the delay in publication of these forms, it is okay to submit the 2019-2020 packet (if signed by the physician before publication of the 2020-2021 forms) but the student athlete must submit an updated History Form (page 3) to be reviewed by the school’s QHP.

- All student-athletes will be screened for COVID-19 with a symptom checklist and temperature check daily prior to participation. If positive, athlete will be sent home by the school. The student-athlete will then need to be evaluated and cleared with a negative PCR test.
Delaware Interscholastic Athletic Association
Pre-Participation Physical Evaluation/Consent Form

The DIAA pre-participation physical evaluation and consent form consists of seven pages. Pages two, three and five require a parent’s signature while pages six and seven are references for the parent and student athlete to keep. Page four requires the exam date and physician's signature and page five requires the clearance to participate date and physician’s signature. The student must be cleared to participate on or after April 1 based on a physical examination conducted within 12 months of the signature. The clearance is valid through June 30 of the following school year unless a re-examination is required.

Name of Athlete: ___________________________ School: ____________________________________________
Grade: ______ Age: ______ Gender: ______ Date of Birth: ______ Phone: ____________________________
Parent/Guardian Name: (Please Print): _______________________________________________________

For the physicals of 9th graders or new school enterers, please check here indicating immunization form attached: ☐

PARENT/GUARDIAN/STUDENT CONSENTS
____________________________________ has my permission to participate in all interscholastic sports NOT checked below?
(Name of Athlete)

NOTE- If you check any sport below the athlete will NOT be permitted to participate in that sport.

Baseball Basketball Cheerleading Cross Country Crew
Field Hockey Football Golf Ice Hockey Lacrosse (B)
Lacrosse (G) Soccer Softball Squash Swimming
Tennis Track Volleyball Wrestling

1. My permission extends to all interscholastic activities whether conducted on or off school premises. I have read and discussed the Parent/Player Concussion Information Document; Sudden Cardiac Arrest Awareness Sheet and I will retain those pages for my reference. I have also discussed with him/her and we understand that physical injury, including paralysis, coma or death and exposure to COVID-19 can occur as a result of participation in interscholastic athletics. I waive any claim for injury, illness, or damage incurred by said participant while participating in the activities NOT checked above.

Parent Signature: ___________________________ Date: __________________

Student Signature: ___________________________ Date: _________________

2. To enable DIAA and its full and associate member schools to determine whether herein named student is eligible to participate in interscholastic athletics, I hereby consent to the release of any and all portions of school record files, beginning with the sixth grade, of the herein named student, including but not limited to, birth and age records, name and residence of student's parent(s), guardian(s) or Relative Care Giver, residence of student, health records, academic work completed, grades received and attendance records.

Parent Signature: ___________________________ Date: __________________

3. I further consent to DIAA and its full and associate member schools use of the herein named student’s name, likeness, and athletically related information in reports of interscholastic practices, scrimmages or contests, promotional literature of the association, and other materials and releases related to interscholastic athletics.

Parent Signature: ___________________________ Date: __________________

4. By this signature, I hereby consent to allow the physician(s) and other health care provider(s) selected by myself or the schools to perform a pre-participation examination on my child and to provide treatment for any injury received while participating in or training for athletics for his/her school. I further consent to allow said physician(s) or health care provider(s) to share appropriate information concerning my child that is relevant to participation, with coaches, medical staff, Delaware Interscholastic Athletic Association, and other school personnel as deemed necessary. Such information may be used for injury surveillance purposes.

Parent Signature: ___________________________ Date: __________________

5. By this signature, I agree to notify the physician and school of any health changes during the school year that could impact participation in interscholastic athletics.

Parent Signature: ___________________________ Date: __________________
**HISTORY FORM**  *Form completed annually along with a Consent & Medical Card. Athlete and parent should fill out form prior to visit.*

Circle questions you do not know the answer to.  *When answering questions, if you are a repeat responder (submitted PPE prior) only answer “Yes” if it is something new that has occurred since you were last cleared for athletic participation. If this is first time, answer “Yes” if ever occurred.  Explain “yes” answers here:

**SCHOOL QUALIFIED HEALTHCARE PROFESSIONAL: (RN/AT)**

If “yes” is answered to any of the above, or “3+ for mental health questions, since the athlete was last cleared for athletic participation, a referral and clearance by the athlete’s primary care provider is required.

I hereby state that, to the best of my knowledge, my answers to the above questions are complete and correct.

PHYSICIAN REMINDERS

1. Consider additional questions on more sensitive issues

   • Do you feel stressed out or under a lot of pressure?
   • Do you feel safe at your home or residence?
   • Have you ever tried cigarettes, chewing tobacco, snuff, or dip?
   • During the past 30 days, did you use chewing tobacco, snuff, or dip?
   • Do you drink alcohol or use any other drugs?
   • Have you ever taken anabolic steroids or used any other performance-enhancing supplement?
   • Do you wear a seat belt, use a helmet, and use condoms?

2. Consider reviewing questions on cardiovascular symptoms (Q4-Q13 of History Form)

### Section 3: Consent for Athletic Conditioning, Training and Health Care Procedures

I hereby give consent for my child to participate in the school’s athletic conditioning and training program, and to receive any necessary healthcare treatment including first aid, diagnostic procedures, and medical treatment, that may be provided by the treating physicians, nurses, athletic trainers, or other healthcare providers employed directly or through a contract by the school, or the opposing team’s school. The healthcare providers have my permission to release my child’s medical information to other healthcare practitioners and school officials. In the event I cannot be reached in an emergency I give permission for my child to be transported to receive necessary treatment.

I understand that Delaware Interscholastic Athletic Association or its associates may request information regarding the athlete’s health status, and I hereby give my permission for the release of this information as long as the information does not personally identify my child.

Parent/Player Concussion Information Document

A concussion is a brain injury and all brain injuries are serious. They are caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. They can range from mild to severe and can disrupt the way the brain normally works. Even though most concussions are mild, all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly. In other words, even a “ding” or a bump on the head can be serious. You can’t see a concussion and most sports concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, seek medical attention right away.

Symptoms may include one or more of the following:

- **Headaches**
- **Pressure in head**
- **Nausea or vomiting**

- **Neck pain**
- **Balance problems**
- **Dizziness**

- **Disturbed vision**
- **Light/noise sensitivity**
- **Sluggish**

- **Feeling foggy**
- **Drowsiness**
- **Changes in sleep**

- **Amnesia**
- **“Don’t feel right”**
- **Low energy**

- **Sadness**
- **Nervousness**
- **Irritability**

- **Confusion**
- **Repeating questions**
- **Concentration problems**

Signs observed by teammates, parents, and coaches may include:

- **Appears dazed**
- **Vacant facial expression**

- **Confused about assignment**
- **Forgets plays**

- ** Unsure of game/score etc**
- **Clumsy**

- **Responds slowly**
- **Personality changes**

- **Seizures**
- **Behavior changes**

- **Loss of consciousness**
- **Uncoordinated**

- **Can’t recall events before or after hit**

*What can happen if my child keeps on playing with a concussion or returns to soon?*

Athletes with the signs and symptoms of concussion should be removed from play immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after that concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one (second impact syndrome). This can lead to prolonged recovery, or even to severe brain swelling with devastating and even fatal consequences. It is well known that adolescent or teenage athletes will often under report symptoms of injuries, and concussions are no different. As a result, education of administrators, coaches, parents and students is the key for the student-athlete’s safety.

*If you think your child has suffered a concussion*

Any athlete even suspected of suffering a concussion should be removed from the game or practice immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without medical clearance. Close observation of the athlete should continue for several hours. You should also inform your child’s coach if you think that your child may have a concussion. Remember it is better to miss one game than miss the whole season. And when in doubt, the athlete sits out.

For current and up-to-date information from the CDC on concussions you can go to:

http://www.cdc.gov/headsup/youthsports/index.html

For a current update of DIAA policies and procedures on concussions you can go to:

https://www.doe.k12.de.us/Page/3298

For a free online training video on concussions you can go to:

https://nfhslearn.com/courses?searchText=Concussion

*All parents and players must sign the signature portion of the PPE indicating they have read and understand the above.*

Adapted from the KHSAA, CDC and 3rd International Conference on Concussion in Sport, 4/2011
What is Sudden Cardiac Arrest?
- An electrical malfunction (short-circuit) causes the bottom chambers of the heart (ventricles) to beat dangerously fast (ventricular tachycardia or fibrillation) and disrupts the pumping ability of the heart.
- Occurs suddenly and often without warning.
- The heart cannot pump blood to the brain, lungs and other organs of the body.
- The person loses consciousness (passes out) and has no pulse.
- Death occurs within minutes if not treated.

What causes Sudden Cardiac Arrest?
- Conditions present at birth (inherited and non-inherited heart abnormalities)
- A blow to the chest (Commotio Cordis)
- An infection/inflammation of the heart, usually caused by a virus. (Myocarditis)
- Recreational/Performance-Enhancing drug use.
- Other cardiac & medical conditions/Unknown causes. (Obesity/Idiopathic)

What are the symptoms/warning signs of Sudden Cardiac Arrest?
- Fainting/blackouts (especially during exercise)
- Dizziness
- Unusual fatigue/weakness
- Chest pain
- Shortness of breath
- Nausea/vomiting
- Palpitations (heart is beating unusually fast or skipping beats)
- Family history of sudden cardiac arrest at age < 50

ANY of these symptoms/warning signs may necessitate further evaluation from your physician before returning to practice or a game.

What are ways to screen for Sudden Cardiac Arrest?
- The American Heart Association recommends a pre-participation history and physical including 12 important cardiac elements.
- The DIAA Pre-Participation Physical Evaluation – Medical History form includes ALL 12 of these important cardiac elements and is mandatory annually. Please answer the heart history questions on the student health history section of the DIAA PPE carefully.
- Additional screening using an electrocardiogram and/or an echocardiogram is readily available to all athletes, but is not mandatory.

Where can one find additional information?
- Contact your primary care physician
- American Heart Association (www.heart.org)
- August Heart (www.augustheart.org)
- Championship Hearts Foundation (www.champhearts.org)
- Cody Stephens Foundation (www.codystephensfoundation.org/)
- Parent Heart Watch (www.parentheartwatch.com)
- NFHS Learn Center – Sudden Cardiac Arrest Video (www.nfhslearn.com)

All parents and players must sign the signature portion of the PPE indicating they have read and understand the above.
