Lesson 11: Introducing Emotion Management

What Is My Child Learning?
Your child is learning to focus attention on his or her body to get clues about how he or she feels.

Why Is It Important?
Thinking about feelings helps the thinking part of the brain start to get back in control. This helps children manage strong feelings.

Ask your child: Where do you feel strong feelings in your body? Point to the places.

Read Together
When you have strong feelings, it’s hard for your brain to think. The feeling part of the brain can take over! When this happens, it’s like you “flip your lid” or lose control of the thinking part of your brain. Try to focus your attention on your body for clues about how you’re feeling. This gets your brain thinking again, so it can start to take back control.

Practice Together: Don’t Flip Your Lid!
1. Read “How to Make a Hand-Brain” (below) and practice together.
2. Pick a feeling from the list below and think of a time you felt it strongly.
3. Make a hand-brain that has flipped its lid.
4. Think and talk about where you feel that feeling in your body.
5. Fold your fingers back over your thumb as you get back control.
6. Try another feeling!

What Is My Child Learning?
Your child is learning to manage strong feelings by saying a stop signal, naming his or her feeling, and using different Ways to Calm Down.

Why Is It Important?
When their strong feelings are under control, children are better able to think clearly and pay attention.

Read Together
When you feel strong feelings, you can use these steps to help you calm down:
1. Stop—use your signal
2. Name your feeling
3. Calm down:
   • Breathe
   • Count
   • Use positive self-talk

Practice Together: Belly-Breathing Basics
1. Read “How to Belly Breathe” (above right).
2. Practice together.
3. Pick a feeling from the list below.
4. Think of a time you felt that feeling in a strong way.
5. Say a stop signal and name the feeling.
   (For example: “Relax! I feel frustrated.”)
6. Practice belly breathing to calm down.
7. Try with another feeling.

What Is My Child Learning?
Your child is learning to manage strong feelings, such as anger, by using the Ways to Calm Down.

Why Is It Important?
When their strong feelings are under control, children are better able to think clearly and avoid hurting others' bodies or feelings.

Ask your child: Why is it important to calm down angry feelings?

Read Together
Everyone gets angry sometimes. Feeling angry is natural, just like all feelings are natural. You can use the Ways to Calm Down to help you manage your anger so you don't do something hurtful. After you stop and name your feelings, try one or more of the following Ways to Calm Down.

- Belly breathing
- Using positive self-talk
- Counting

Practice Together: It Adds Up to Anger!
Everyone feels angry in different places in their bodies. For this activity, decide what physical signs add up to anger for each of you.

1. Think about the last time you felt really angry.
2. Read the “Physical Signs of Anger” list.
3. Decide which signs match how you felt the angry feeling in your body.
4. Write the signs you chose in the spaces below. Add your own physical sign if it’s not on the list.
5. Now practice using the Ways to Calm Down.

The soft sounds in music contain a p for piano, the Italian word for “soft.”

The p sounds are:

   pp    pianissimo  very soft
   p     piano        soft
   mp    mezzo piano  medium soft

The loud sounds in music contain an f for forte, the Italian word for “loud.”
The f sounds are:

   mf    mezzo forte   medium loud
   f     forte         loud
   ff    fortissimo   very loud

Look at each space in the puzzle below. Color only the soft sounds blue and all the loud sounds
green to find the hidden thing that makes a soft and sweet sound.
Imagine This

Can you imagine the sound that each picture below is making? Is it f (forte, loud) or p (piano, soft)? Add on f or p to each thought balloon below to indicate the sound (loud or soft) of each picture.
Notes and Rests

Using crayons or colored pencils:

1. Color the whole note: orange

Use this page as a guide to complete the Color-by-Note Clownfish page.
**Sound Score**

Pat, click your tongue, stamp, and clap four times each. Keep a steady beat. Then cut out the squares and put them in any new order. Play your new piece. Get faster or slower or louder or softer as you like. Ask a friend to play his or her piece while you play yours. Now try your piece **without** keeping the steady beat.
**A Listening Walk**

**Spring Sounds Checklist**

Musicians have to use their ears to listen closely. Listen for these spring sounds. When you hear it check the box. Can you hear them all?

Bounce On The Beat

1. Find a ball that you can bounce and catch easily.
2. Practice counting "1, 2, 1, 2" on a steady beat.
3. Bounce the ball on beat 1 and catch on beat 2.
4. Now practice counting to 3. "1, 2, 3, 1, 2, 3".
5. Bounce the ball on 1, catch on 2, get ready on 3.
6. Now practice counting to 4. "1, 2, 3, 4, 1, 2, 3, 4".
7. Bounce on beat, catch on beat 2, hold the ball on 3, get ready on 4.
8. Think of a song (Twinkle, Twinkle Little Star, Jingle Bells).
9. Practice bouncing your ball like before on beat 1.
10. Can you keep it going for the whole song?
11. Can you be creative and bounce the ball and spin around before catching it?

How to Create a Starburst Picture
First and Second Grade

Materials you will need:
- A pencil with eraser
- A white piece of paper
- Something to color in spaces - crayons, markers, colored pencils etc.
- A ruler or a straight edge (an edge of a book, cardboard strip, or a paint stirr.)

1) To begin take your paper and draw two large dots anywhere on the paper.

2) Now draw ten small dots on the paper. Try not to line them up with the two big dots.

3) Now choose one of the small dots and draw a straight line from it to both of the larger dots. These dots are shown bigger than need be.

4) Repeat for all other small dots. Do not join any small dots together, and do not join the two large dots together.

5) Now, you can color them.
You could try to color using one of these ideas

Marker: warm colors to cool colors

Value: tint, hue, and shade

School Colors: no two adjacent colors are touching
The checkerboard effect with only two colors
Remote Learning Art Activity (grades 1-2) Goal: Understanding the art element of form/create a sculpture with repeated shapes. Materials needed: Scissors (markers, crayons, color pencils optional)

Then make a more complex sculpture. Choose another shape to repeat and add to your sculpture. Add colors and patterns if you wish
Remote Learning Art Activity (grades 1-2)

A Modular Sculpture

A modular sculpture has repeated forms or shapes. The shapes can be identical or varied in size, color, or pattern.

Make your own modular sculpture. Cut out one shape and use it as a pattern to make at least five identical shapes. Make the slits in the same place on each shape. Assemble the shapes.

Then make a more complex sculpture. Choose another shape to repeat and add to your sculpture. Add colors and patterns if you wish.

I can create a sculpture with repeated shapes.
What is a sculpture?
It is the creation of artistic objects in three dimensions—meaning I can see it from more than one side. Sculptures can be created from clay, metals, plastic, or in our case recyclable objects!

Task:
You are going to take something that you would normally recycle/throw away and transform it into something else!

Materials:
- Many discarded or for example:
  - Plastic bags that once contained the daily newspaper, bread, bagels, tortillas, produce, frozen vegetables, and empty K-Cups and used coffee filters
  - T-shirts, Empty bottles, jars, and containers with lids, Broken jewelry and old toys, Toilet paper rolls and paper towel tubes, Newsprint, magazines, and old books, Boxes (cereal, cereal, baby wipes), Egg cartons, Plastic utensils, Candy wrappers, Juice pouches and juice boxes. Anything you can find will work!
- Fixatives:
  - Glue, tape, hot glue gun (guardian permission help), string.
  - Scissors (If you don’t have any you can also rip/torn the materials!)

Procedure:
This is when you get to let your creativity shine! Look at the materials you have found and try to imagine it into something else. Maybe you see a dragon, car, robot, flowers, or even you see a person! Maybe you just want to see how high you can make it or make it into weird and unique shapes. Using your materials you are going to create a sculpture of your choosing.

Tips:
- When gluing hold together for at least 60 seconds
- If you mess up, turn it into something else!
- You don’t have to use all of the recyclable materials that you’ve found.
- Have fun and be creative!
Loopy Fish 1-2

Materials
White paper, Pencil, Colored pencils or Crayons (optional)

Directions

1. Draw a looping line around your paper
2. On each loop, where the line "crosses" draw a fish tale
3. Add fins, eyes, scales and details on each fish
4. Add some coral, shells, etc to the background
5. Color with pencils or colored pencils
Directions: Your job is to finish the other half of the picture so it looks the same as what is shown on the monster. When you are done you can color it and name your creation. Symmetry is just a fancy word to mean the same.

Line of Symmetry
Complete the other half of the monster to match and label the line of symmetry.

Some toys get more valuable as they get older. Does this mean your old stuffed animals are worth thousands of dollars?  

BY TÖD OLSÖN

Back in 1978 a Luke Skywalker action figure sat in a toy store wrapped in plastic and cardboard. Then a Star Wars fan bought it. It cost only $2.49. For almost 40 years, no one played with the toy. But in 2015, someone bought it.

This time it cost $25,000. That’s right! An old plastic toy was worth even more money than a big diamond ring.

This is what happens in the wacky world of toy collecting!
Treasure Hunt

Most people buy toys to play with them. But toy collectors don’t. They don’t even open them!

Collectors buy them because they hope the items will be worth a lot of money one day. For these people, collecting is like a big treasure hunt.

Popular toys to collect are action figures, LEGO® sets, and even some stuffed animals.

A Future Fortune?

Today many toys are made only to be collected. One example is LEGO® toys. Some sets can cost nearly $800!

Toys like these are known as collectibles. Americans spend billions of dollars on them every year.

But that’s not what makes toy collecting fun. What’s fun is buying a regular toy and later finding out that it’s collectible.

collectibles: items people collect that sometimes cost a lot of money
worth more than you paid for it. But how can you know whether a toy will make you rich one day?

You can’t. It’s hard to know which toys might make you rich. In fact, those toys are often the ones nobody wanted when they were brand-new.

**Why People Collect**

Remember that Luke Skywalker toy? The one that sold for $25,000? It had a part that broke easily. So the company stopped making it. Today there aren’t many left. This is why people will pay a lot to own one.

Then there’s the Roller Beach Bomb. (That’s the pink van on the right.) This was a Hot Wheels van. It was made in 1969. But there was one problem: The van kept tipping over. Kids didn’t like that. So Hot Wheels stopped making it.

But let’s say you had one of those Roller Beach Bombs. Today, if it’s still in its box, it could be worth $150,000. That’s enough to buy ten real cars!

Why would anyone pay that much? Some people collect because they hope an object will become more valuable. Some want to feel like they’re part of history. And some love hunting for a rare toy. To them, it’s like looking for hidden treasure.

Another reason to collect old toys: They can bring back happy memories. Maybe your old LEGO® bricks will never be worth much. But someday, they might remind you of your best friend. And that’s important too, right? ■
My Priceless Treasure

BY LAUREN TARSHIS

When I was 12, my grandmother Jennie gave me a present. It was a gold necklace. It had a heart-shaped locket.

It was very valuable, I was sure—solid gold. I wore it only on special occasions. Otherwise I kept it hidden in my sock drawer.

As I got older, I wore the necklace more. I always had it on when I saw my grandmother.

“Ooh!” she’d say. “It looks beautiful on you!”

My grandmother died at the age of 92. I wore the gold heart to her funeral. Soon after, the chain broke.

I went to a jewelry store to buy a new chain. I brought the heart with me.

The man in the jewelry store looked at the heart closely. Then he told me the shocking news: My precious heart was made of fake gold.

So my family treasure was pretty much worthless.

I bought a new chain anyway.

This one is real gold. I still wear the heart on important occasions. For me, the value of the heart isn’t about gold. It’s about the memories that flood back when I wear it.

I think of my grandmother’s huge smile. I remember how her eyes would light up when she saw me.

She always made me feel like I was the most special person in the world.

I know that locket isn’t worth much money.

But to me, it’s priceless.

THINK AND WRITE

Think about the ideas in these two texts. Then write a personal narrative about an object that is valuable to you. Describe the object, how you got it, and what makes it special to you.
Think About It!

**Close-Reading Questions:** Read the articles "Toys or Treasures?"/"My Priceless Treasure" in the February 2019 issue. Then go back and reread sections of the articles to answer the questions below.

1. Read the first section. Was the Luke Skywalker action figure more valuable in 1978 or in 2015?

2. Why does the writer of this article describe toy collecting as "wacky"?
3. Read "Treasure Hunt." Why do toy collectors buy toys?

4. Read "A Future Fortune?." Why do special LEGO® sets cost so much money?

Continued on next page >
Think About It!, p. 3

5. Read “Why People Collect.” Why are the Luke Skywalker toy and the Roller Beach Bomb van so valuable?

6. What are some reasons that people collect old toys?

7a. Read “My Priceless Treasure.” What did Lauren Tarshis find out about her grandmother’s gift when she tried to buy a new chain?
Think About It!, p. 4

b. Why does she still describe the heart-shaped locket as "priceless"?

Critical-Thinking Question (a big question about the whole article):

8. Think about both articles. What makes both the heart-shaped locket and the collectible toys valuable to their owners?
"Toys or Treasures?"/"My Priceless Treasure" Quiz

Directions: Read the articles "Toys or Treasures?" and "My Priceless Treasure" in the February 2019 issue. Then fill in the bubble next to the best answer for each question.

1. The author compares the Luke Skywalker toy to a diamond ring to explain ___.
   ④ how old the toy is
   ⑤ what the toy looks like
   ⑥ how valuable the toy is
   ⑦ why the toy is hard to find

2. According to "Toys or Treasures?,” an old toy might be valuable if ___.
   ④ it is pink
   ⑤ it is an action figure
   ⑥ it brings back happy memories
   ⑦ the toy company made only a few of it

3. Based on the article, which Luke Skywalker toy from 1978 would sell today for the most money?
   ④ one still in its packaging
   ⑤ one that was broken in half
   ⑥ one that had been played with
   ⑦ one that was missing a part

4. After Lauren found out the heart was made of fake gold, she:
   ④ threw it away
   ⑤ kept wearing it
   ⑥ gave it to a friend
   ⑦ sold it to a toy collector

5. Lauren says, “So my family treasure was pretty much worthless.” Which word in the two texts means the opposite of worthless?
   ④ wacky
   ⑤ exciting
   ⑥ valuable
   ⑦ memories

6. What do the treasures in the two texts have in common?
   ④ They are all made of fake gold.
   ⑤ They were all made for movie fans.
   ⑥ They were all bought a long time ago.
   ⑦ They are all in their original packaging.

Short Answer

Directions: Answer the question below in a short, well-written paragraph. Make sure to use details from the articles.

Why is the Luke Skywalker toy a treasure to toy collectors? Why is the heart a treasure to Lauren?
Should Sweets Be Banned From School Parties?

More schools are cutting out cupcakes and other treats, but not everyone thinks it’s a healthy move.

BY LAUREN TARSHIS

It’s Julia’s 10th birthday, and her mom has come to her classroom to celebrate. Her teacher leads the class in singing “Happy Birthday” (first in English, then in Spanish). Then Julia’s mom passes out the birthday goodies she has brought. Every year since kindergarten, Julia’s mom has baked tasty birthday treats. She’s made cupcakes with Oreos and cookies with icing like soccer balls. Julia’s favorite? The pink cake pops.

But this year, Julia’s mom brought something different: birthday pencils.

Pencils?

Improving Kids’ Health

Julia’s school has banned sweet treats from school parties. So have many schools around the country. Fewer sweets in school will help make kids healthier, experts say. One-third of American kids are too heavy. This can lead to health problems like type 2 diabetes.

Also, parties with messy foods and drinks require too much setup and cleanup time, some say. This can distract kids from learning. Food allergies are another problem. It’s too risky to let parents bring foods into the classroom.
As you can imagine, most kids don’t like the ban. “What’s fun about a party if there’s no cupcakes?” asks Kate, from Georgia.

Many parents are also upset about these bans. “I want my kids to be healthy,” says one mom in Arizona. “But parties are an important tradition. It makes me sad to think my kids will miss out.”

**Safe Cupcakes**

People who want sweets at school parties point out that not every kid gets to have a party at home. So the school birthday party may be a child’s only chance to celebrate with friends. Many families don’t have space at home for large parties. And hosting a party at a restaurant, a gym, or an arcade can cost hundreds of dollars.

Parents in Texas had strong opinions about this issue. They convinced their state leaders to pass the “Safe Cupcake Amendment.” This allows parents to bring frosted treats into school for birthday parties.

In most states, the bans are becoming more common. How does Julia’s mom feel about all this?

At first she was sad when she heard that she couldn’t bring in cupcakes. But Julia’s classmates liked the pencils. And now Julia’s mom feels a bit relieved. “It was a lot of pressure, coming up with something new every year” she says.

What do you think?

Should sweets be banned from school birthday parties? Reread the article and find reasons to support each side. Write down the information, then study the points on both sides of the argument. State your opinion in one sentence, which can be the introduction to an opinion paragraph on this subject.
What Do You Think?

**Directions:** Read the article "Should Sweets Be Banned From School Parties?" in the October/November 2018 issue. Use this sheet to fill in support for each side.

Silver Dollar Dreams

How will Alex ever earn his orange belt in karate? With a lot of practice—and some dreaming too.

THINK AND READ

How a Character Changes
As you read, think about how Alex changes throughout the story.

My Grandpa Nick says that everyone needs a dream. He says dreams give you a reason to keep trying. Then he asks me about my dreams and tells me that being 10 is no excuse for not having any.

I have two. The first is a big one—to find the treasure that my great-uncle Jimmy lost. Grandpa helps me with that one. It seems that Uncle Jimmy buried a bag of money and seven silver spoons, and then forgot where he put them.

Before Uncle Jimmy passed away, he whispered to Grandpa that he thought it was all hidden in an alleyway in my New York City neighborhood.

Grandpa and I scour the streets for it every chance we get. Last week we searched near a candy store. I came home with a bag of gummy bears, chocolate bars, and a monster stomachache. But no treasure.

Since Grandpa Nick knows all about my first dream, I tell him about the second—I want to earn my orange belt in karate.

belt in karate. "It's not really much of a dream," I say. "It's not like a buried treasure dream." A buried treasure dream is a really big dream, like finding Uncle Jimmy's spoons and money.

Or going for a black belt.

**PAUSE AND THINK:** Why does Grandpa Nick think that everyone needs a dream?

## A Little Dream

A black belt is the highest rank in **martial arts**. An orange belt means you're no longer a beginner, but it also means you have far to go. Since I've been studying for two years now, I should have been an orange belt a long time ago. It's hardly a dream at all.

Grandpa disagrees. "Wanting an orange belt is nothing to be ashamed of, Alex. Not all dreams are big buried treasure dreams." Grandpa Nick rests his hand on his cane. "What you've got is a good, little dream that's within reach. That's what I call a silver dollar dream. Nothing wrong with that."

What I didn't tell Grandpa was that I had more of a chance of finding Uncle Jimmy's treasure and the ghost of Uncle Jimmy himself than I had of reaching my silver dollar dream.

Everyone who goes for an orange belt has to break a board. The scariest part? It has to be done bare-handed. Boards are hard and solid. Even the thought of hitting one makes my fingers **numb**.

"Your punches and kicks are good," Grandpa Nick says. "Remember, there's nothing wrong with a little dream. I have enough of them, and they can turn into something big." Grandpa reaches into his pocket and tosses me a coin.

"A silver dollar for your silver dollar dream."

**PAUSE AND THINK:** What is a silver dollar dream?

---

**martial arts**: fighting or self-defense styles that use hands and feet

**numb**: not able to feel anything
The Big Test

That Tuesday, Mom drops me off at the karate school. I bow at the door before I step into the room. I say hello to Sensei Foster—sensei means teacher in Japanese. Then I search for my friend Jocelyn.

I find her in the corner, practicing her kicks and punches. "Are you going for your orange belt?" she asks. "The test is tomorrow."

I shrug.

"All you have to do is break a board. Sensei says you're ready."

I shrug again.

"The secret is to pretend the board isn't there. That's what I do," Jocelyn whispers.

Pretend the board isn't there? That's like trying to pretend that Superman is a wimp. Some things can't be done.

Before I can ask Jocelyn any questions, Sensei Foster tells us it's time to practice board-breaking. One by one, the students face Sensei Foster. I listen to the sound that each board makes when it breaks. Sometimes it's a sharp, quick snap. Other times it's a long crackle, like someone poured milk onto a giant bowl of Rice Krispies.

Sensei calls my name. He holds the board firm. "Focus. Don't aim at it. Aim through it. See past it."

But all I can see is the board in front of me, and all I can think about are the many things that are made from wood. Sturdy things. Hard things. Like baseball bats. And chairs. Fences. Houses.

crackle: a series of short, snapping sounds
Hard-to-break things.
I close my eyes. And I hit the board.
A sharp sting runs through my
hand. The board stays solid and whole. I
try to hide my pain.

Jocelyn mouths the words “try
again.” And Sensei Foster says the same
thing out loud.

Instead, I bow to show that I’m
done. “There’s another test in a few
weeks,” Sensei Foster says as he pats my
shoulder. “I hope you’ll try again.”

**A Bad Fall**

When I reach my apartment, Mom
is sitting in the kitchen. Grandpa, who
is usually in the living room waiting for
me, is not around.

“I have some bad news,” she says.
“Grandpa Nick fell today. Your dad is
with him at the hospital.”

I reach for the silver dollar in my
pocket and hold it tight. “Is he OK?”

Mom nods. “Bad sprain. It’s going
to take him a while to recover.”

Later that night, Grandpa comes

talking without making a sound

**sprain:** an injury to a ligament

home. Instead of his cane, he uses a
squeaky metal walker.

For the next few weeks, Grandpa
doesn’t leave our apartment. There are
no trips to get candy. No searching the
streets for Uncle Jimmy’s treasure.

“When is he going to be off that
thing?” I ask my dad one morning,
pointing to the walker.

“His leg is probably healed enough
for him to be off it now,” says Dad. “But
he’s worried about falling again. This is
hard for him.”

I hate the squeak. And how Grandpa
Nick never once asks about my dreams.
I miss the old Grandpa.

**What’s the Difference?**

After school, I go to Jocelyn’s house.
She helps me with my punches, and I
pretend that pillows are boards.

“If only I could take a pillow-bashing
test, I’d have that orange belt for sure,” I
say as we walk to karate class.

“Pillow. Board. What’s the
difference?” asks Jocelyn.

What is the difference? I wonder. I
remember what Grandpa said—my
punches and kicks are good. Suddenly, I
realize that I already have what it takes.
"I will break it," I whisper.
Later that afternoon, I rush home.
The first thing I do is ask Grandpa about his dreams.
When he tells me he's not sure, I tell him that being 75 is a poor excuse for not having any dreams. And I bring him his cane and hand him back his silver dollar.
"Take one step with your cane," I say.
"It's what I call a silver dollar dream. Remember, there's nothing wrong with a little dream. Have enough of them, and they can turn into something big."
Then I take the broken board from my knapsack and add, "Wait till I tell you what happened in karate class today."

**THINK AND WRITE**

Imagine you're Alex. Write a journal entry about the day you finally broke the board. Include lessons you learned from Grandpa Nick and Jocelyn.

THINK AND READ

Author's Craft in this story, the author asks you to imagine you're a penguin. Think about why.
**In Need of Help—and Food**

The penguins are covered in oil (above). At right, they wait for the rescuers to feed them. This pool can hold 100 penguins!

---

**plunge** into the sea, you shoot through the water. You grab **sardines** to eat. Your feathers protect you from the freezing water.

You stay in the sea for hours. When your belly is full of sardines, you head back to shore.

That’s when something goes wrong. You come to the surface for air. But the water feels strange. It is thick. It stings your eyes. You try to swim away. But now your wings are too heavy to lift. You can barely catch your breath.

You don’t know it, but hours ago, a ship called Treasure hit a **reef**. Then it split apart. As it sank, 1,300 tons of oil gushed into the sea. Thousands of penguins are soaked with the poisonous oil.

**Pause and Think**: Why was it hard for the penguins to swim back to shore?

---

**Need to Survive**

Oil does terrible things to a penguin. It makes your feathers separate. Now you are shivering. Freezing water is hitting your sensitive skin. Your eyes hurt. The oil has burned them. Your

getting hit by wings and bitten as they load penguins into crates. It is painful and tiring work. And it’s sad to see all of these scared and hurt penguins. Some of the humans try not to cry. But they don’t give up. The workers want to save all of the penguins.

**Pause and Think:** Who are the creatures? What are they doing on the beach?

**Everything Is Hard**

A team of people is 10 miles away. They have turned a building into a penguin rescue center. They will wash and feed the penguins. But just getting one penguin to eat is hard. In the wild, penguins eat sardines that are still alive. Penguins don’t want dead fish. So workers have to hold the penguins and pull their beaks open. Then they shove the fish down their throats. Feeding them all takes a full day.

And then there is the stinky smell in the warehouse. It comes from penguin droppings, dead sardines, and human sweat. Many people throw up when they first arrive. But not even the smell keeps people away.

Thousands of helpers come to the building. Some are rich women from fancy neighborhoods. Some are poor teenagers from city streets. Some have never even owned a pet. But all of them want to save the penguins.

**Pause and Think:** What is happening in the warehouse?

**Heading for Home**

Weeks pass. Then one day, you are put into a box. You feel yourself being moved. When the box is opened, you are on a strange beach. First you stand there. Then you can’t help yourself. You run toward the water and dive in. You swim until you reach the shores of a

CRITICAL THINKING QUESTION (a big question about the whole play):

11. In this play, almost everyone is afraid to speak up. When might it be important to speak up, even if no one else does?
Understanding Fairy Tales

Fairy tales are short stories that people have been telling for many years, often to children. Fairy tales take place long ago and often have royal characters, like queens and princes. These stories usually have something magical in them, like a talking animal. In this activity, you will explore what makes the play The Emperor's New Clothes a fairy tale.

Directions: The gray boxes below list four characteristics that fairy tales often have. After reading each one, answer the question or questions that follow using details from the play.

1. Fairy tales take place long ago.

What details in The Emperor's New Clothes show that the story takes place in the past? (Hint: Look at the illustrations.)

2. Fairy tales often feature royal characters.

Royal characters are people from a ruling family, like kings, queens, princesses, and princes. They usually live in palaces or castles. Who is the royal character in The Emperor's New Clothes? How do you know?
3. Fairy tales usually have something magical in them.

Magical people, animals, and objects often appear in fairy tales. Examples include talking animals, wizards, elves, and objects with special powers. What magical thing or person is in the play? (Hint: The Emperor's New Clothes is unusual because what is supposed to be magical turns out not to exist.)

4. Fairy tales have heroes and villains.

a. Who is the hero of The Emperor's New Clothes? Is there more than one? Who are the villains?

b. Villains in fairy tales usually create problems that the heroes solve. What problem is created by the villains of The Emperor's New Clothes? How is the problem solved?

**THE BOARD GAME**

**Directions:**
- Each person should pick something in the house as their game piece such as a coin, paper clip, button, etc.
- Roll a die and move your game piece to that square and perform the assigned task. If you don’t have a die, Google roll a die “Ta da! You have one now!”
- Be the first to reach the Finish! Woo hoo!

If you are not sure how to do an exercise, Google or YouTube it!
Enclosed you will find 10 different at home learning & movement activities. Please feel free to use with your students and share with as many as you'd like.

The Daily Big 3

This is a great time while we are out of school for you to start practicing taking care of your overall wellness on your own. But don’t worry, I’m here to guide you! The Daily Big 3 are three things you can do while you’re out of school to take care of your physical and mental wellness. Fill in the date for each day and check off items as you complete them.

- Each day you will work on a skill that helps with mental or emotional wellness.

  Why are we doing this? As humans, we are going to feel a variety of emotions and feelings throughout our lives every day. Practicing skills to help manage them is really important and can be difficult. A lot of times our decisions can be related to our emotions. The better we get at managing and recognizing our emotions, the better we will get at making healthier decisions.

- You will also complete some kind of physical activity.

  Why are we doing this? Being physically active regularly is a healthy habit, not just for our physical health, but it helps with our mental and emotional health, too. When we are physically active, we can improve our mood immediately and we are using up energy which can help us have more restful sleep. If we practice making physical activity a part of our day now, it will be easier to do when we are adults and are busier.

- After you complete the activities, you will reflect on them.

  Why are we doing this? Figuring out why we do what we do is important so that we can create healthy habits. If we take moments to pause and reflect, we can figure out why we like something (or don’t), why we may have done something, we can figure out ways to improve going forward, and sometimes it’s even a really good way to vent! It’s healthy to learn about ourselves and be able to do things that are meaningful to us as individuals.

Click on the links below to take you to that day’s Daily Big 3.

Day 1 (Date: __________)

Start and end your day with a Mindful Minute.
A Mindful Minute is 60 seconds of quietness in the present moment. Don’t think of anything that has already happened or anything that will happen in the future. If your mind starts to wander, focus on your breathing. A Mindful Minute is a great tool to use any time of day especially if you feel overwhelmed, anxious, mad, or just need to focus.

- Start of the day Mindful Minute
- End of the day Mindful Minute

Try a Tabata workout.
Today try a Tabata workout. A Tabata workout is a workout that consists of 20 seconds of high-intensity activity followed by 10 seconds of rest on and off for eight rounds.

Here is a workout to try:
- Complete eight rounds of 20 seconds of **bodyweight squats** followed by 10 seconds of rest.
- Complete eight rounds of 20 seconds of **push-ups** (on your knees is okay) followed by 10 seconds of rest.
- Complete eight rounds of 20 seconds of **mountain climbers** followed by 10 seconds of rest.

What did you think? Choose all that apply.

- This was fun!
- Not for me.
- I would do a Tabata workout again.
- It was challenging.

Reflect on the day.
On a separate piece of paper or on the back of this page answer the following questions.

- How did you feel before, during and after your Mindful Minutes? Things to consider in your answer are determining if you found it difficult to be in the present moment or why you were feeling a certain emotion.
- Do you feel a Mindful Minute is something you would do regularly? Why or why not.
- Explain why you selected your answer for the Tabata workout response above.
Day 2 (Date: __________)

Try progressive muscle relaxation.
Progressive muscle relaxation is a way to relax your body by tightening your muscles then relaxing them. You lay down and start at your head, squeezing and relaxing different muscles in your face, and work all the way down to your toes. Like a Mindful Minute, this is a great tool to use if you feel overwhelmed, anxious, mad or just need to focus.

Start progressive muscle relaxation with these areas of your body listed below. Squeeze the muscles and hold for 15 seconds then relax your muscles while counting to 30. Do this for each area until that area feels relaxed. Remember to breathe and not hold your breath.

Try a Would You Rather workout.
This is a fun way to get some physical activity in by choosing between two things (e.g., PlayStation or Xbox). Depending on what you pick is what exercise you complete. Try the Would you rather? workout below. Use the physical activity chart to look up how to do an exercise if you’re not sure. Once you’ve completed it, do it again but picking the opposite choices.

What did you think? Choose all that apply.

☐ This was fun!
☐ Not for me.
☐ I would do a Would You Rather workout again.
☐ It was challenging.

☐ Reflect on the day.
On a separate piece of paper or on the back of this page answer the following questions.

☐ Compare progressive muscle relaxation to a Mindful Minute. List out the pros and cons of each one. Which one did you like better? Which one do you see yourself using more often? Be sure to explain the reasons why or why not.

☐ How did you feel during and after the Would You Rather workout? Explain your selections for “What did you think?” above.
Day 3 (Date: ____________)

- Your choice of mindfulness activity.
  Pick from one of the following to do.
  - Mindful Minute
  - Progressive muscle relaxation

- Create your own Tabata.
  Create your own Tabata using the Physical Activity Chart in your packet using the table below. Once you've created it, do it! If you're up for a challenge complete your Tabata three times.

- Reflect on the day.
  On a separate piece of paper or on the back of this page answer the following questions.
  - How are you feeling about being out of school because of the coronavirus? Be sure to explain why you are feeling a certain feeling.
  - How can you use a Mindful Minute or Progressive muscle relaxation during this time?
Day 4 (Date: ___________)

1. Listen to some mindfulness music and create a playlist.
   Have you ever listened to a song and it made you happy or triggered a memory? Music can affect our emotions and we tend to listen to music that reflects our mood. Music can also be a great strategy when we may be feeling down, anxious, overwhelmed or even mad.
   Today, try listening to some music or sing a song you really enjoy. Remember to be in the present moment, not thinking about what has already happened or what will happen. If your mind starts to wander focus on the music, like the melody or the lyrics of the song, and how you’re feeling.
   Once you’re done, create a playlist of songs you like that make you happy, tend to uplift you or make you feel relaxed when you listen to them.

2. Create your own Would You Rather workout.
   Create your own Would You Rather workout using the Physical Activity Chart for exercise ideas.
   Once you’ve created it, do it!

Internal Voice as an Influence

Part 1: Think about the Thought of the Day. Do you agree or disagree with the statement below?

You will make better decisions the more you value yourself.

In the space below explain why you agree or disagree.

Thought of the Day

How I feel about myself directly affects my behavior.
Part 2: What does your internal voice say to you? Answer in the space below.

Part 3: Create a positive "I" statement using markers, colored pencils or whatever you have around the house. Then post it somewhere you can see it daily.
Note to Teachers

This lesson was adapted from the health.moves.minds Power Through Empowerment: Lesson 1 for grades 6-8, but can easily be used for grades 9-12.

Depending on your distance learning capabilities you may want to follow up with students about this assignment. Use the example script below to continue discussion. Either by e-mail, video conference, or in the next take-home packet.

Example script: “Who do you hear most in your head? Probably yourself. Most of us are always having an internal conversation with ourselves. Earlier we saw how outside influences can affect our decisions, but your own thoughts and self-esteem can influence your behavior as well as outside influences.”

Discuss the following questions/scenarios:

- Use the example of a parent.
  - What if the parent is constantly negative to their child? (You are a pain, you’re stupid, you will never be anything, etc.)
  - How will that child feel about him or herself?
  - What if the parent is nurturing, loving, and positive? (You are great, I love you, you will do better next time, etc.)
  - How will the child feel about himself/herself?
- Make the point to students that it’s important to be kind to ourselves as much as it’s important to be kind to others.
- Give some of the following as potential thoughts people might think about themselves.
  - I’m smart
  - I’m pretty/handsome
  - I’m ugly
  - I’m stupid
  - I’m OK
  - I’m weak
  - I’m a good friend
  - I’m nothing
  - I’ll never be loved
  - I deserve to be loved
  - I deserve to be treated well
- How does someone’s self-esteem affect their health?
- How can a person’s internal thoughts influence their relationships with others, such as friends, parents or other classmates and peers?
