Dear Parents,

25 January 2021

Today, January 25, 2021, the Caesar Rodney Countywide Program administration was notified by the Department of Public Health (DPH) that an individual in the Charlton program at Fifer has tested positive for COVID-19.

Through our contact tracing protocol, we have identified and notified all families whose students may have had close contact with the individual who tested positive or who may have been exposed, as well as all staff members who may have been exposed. If you did not receive such a notification, it means we do not believe your child has been potentially exposed.

The individual who has tested positive for COVID-19 and anyone who had close contact with the individual has been excluded and asked to quarantine.

We always encourage you to monitor your child for any symptoms of COVID-19. If a student or staff member is sick with any of the following symptoms, stay home: fever, cough, shortness of breath, sore throat, muscle aches, fatigue, chills, shaking with chills, loss of smell or taste, nausea or vomiting, diarrhea, or headache or congestion or runny nose without a known cause such as allergies. Our school nurse is available to support your family by reviewing symptoms to watch for, answering questions you may have, assisting with follow up communications, and providing further information on available testing sites. COVID-19 testing is free and available in our local community.

DPH encourages all Delawareans – whether you are experiencing symptoms or not – to consider getting a free test. That will help our state more accurately track the spread of the disease and keep our communities healthy.
