Good evening, this message is from Brook Castillo, principal of McIlvaine ECC.

Tonight, I want to tackle our three most frequently asked questions this past week! First, who is my child’s teacher? Second, when can we pick up our chromebook? And finally, what school supplies does my child need?

We will begin sorting classes once the remote versus hybrid learning commitment letter closes tomorrow evening. Once students have been sorted into classes your child’s teacher will reach out to you by phone later this week. Please know that this call may come from a blocked number as many of our teachers are still working remotely. Additionally, if you have not completed the hybrid or remote learning commitment letter please do so prior to tomorrow evening at 4pm when the survey closes. You can find the survey on McIlvaine’s website www.crk12.org/mecc.

Chromebook pick up will begin next Monday, August 31st. This will be a drive thru event so we ask that you remain in your vehicle. You can stop by McIlvaine any time between 9am and 3 pm on Monday, August 31st, Tuesday, September 1st or Wednesday September 2nd. We will also hold evening hours on Wednesday, September 2nd from 4pm -6pm. We will also have pick up on Thursday, September 3rd by appointment only, please call the school to schedule an appointment. Chromebooks are being given to each student in the district and are on loan for the school year. The chromebook is free to your student however, the district is asking for a $20 insurance payment for the year. We will accept a check or cash payment when you come to pick up your chromebook. Additionally, it is required that your child use the chromebook we are providing to them for security and networking reasons. For more information about the chromebooks and insurance policy please visit McIlvaine’s website at www.crk12.org/mecc.

Finally, when you pick up your chromebook we will also distribute other school materials and supplies your child will need for remote learning such as their math notebook, writing journals, and flash cards. Included we will have a starter set of school supplies including a pencil, eraser, scissors, glue, crayons, and a dry erase board. These are all items for your child to keep at home and use throughout the year during their remote learning sessions. We have divided our school supply list into two separate lists with items needed for remote instruction and items needed for hybrid instruction. You can find these lists by checking out our website.

Please don’t forget to follow McIlvaine on social media for important updates!

Thank you and have a great evening!
