ASBESTOS NOTIFICATION
August 23, 2019

All school districts are required to have a detailed inspection of each building to
determine the existence, location and condition of asbestos containing materials. As per
Environmental Protection Agency (EPA) guidelines, every Local Education Agency
(LEA) must notify all workers, building occupants and legal guardians of all inspections,
re-inspections, and activities being conducted to control asbestos exposure, including
periodic surveillance and asbestos removal, that are planned or in progress.

In accordance with the EPA regulations pertaining to the management of asbestos in
schools, the Caesar Rodney School District has had the required inspections. The last
three year re-inspection was completed on June 5, 2017 by Harvard Environmental, Inc.
and six month surveillance inspections are scheduled for every December and June of
each school year. All records are filed and maintained in the Caesar Rodney School
District’s Asbestos Hazardous Emergency Response Act (AHERA) management plan.
This plan is available for all to review and is located in the district office and in the main
office of each school building.

The next AHERA three-year re-inspection is scheduled to be performed in June 2020.
Any asbestos abatement work within the facilities will be performed in a compliant
manner by professionally licensed asbestos contractors and consultants. If you have any
questions regarding these subjects, please contact the Supervisor of Facilities
Management at 302-697-4048.
